

Farmweld A-Crate™ with Lower Flip Bar.

Durable. Productive. Versatile.

The Farmweld A-Crate with lower flip bar ensures the sow eases herself down slowly to give baby pigs more time to move to safety.

Farmweld A-Crate

Lower Flip Bar Option

Bar attaches to finger 3 and finger 6, which are each 5/8" (16 mm) diameter solid rod fingers instead of the typical 1/2" (13 mm) diameter solid rod finger.

- 17" (432 mm) width between flip bars
- 5.5" (140 mm) lower than standard height flip bar
- 9" (229 mm) from the floor
