

Farmweld Warming Panel.™

Durable. Productive. Versatile.

*Choose the Farmweld Warming Panel
to reduce drafts and keep
newborn piglets warmer.*

**“The Farmweld Warming Panel is a
solid creep area that cleans up nicely
and doesn’t allow urine to pool.”**

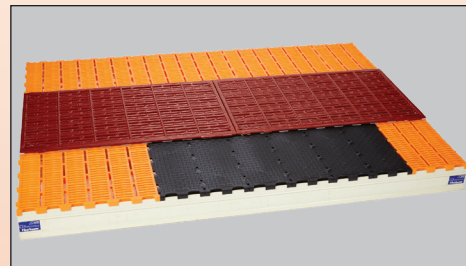

– Abbey Briscoe,
Veterinarian & Part-Owner, Pitchco Inc., Montrose, IL

flexibility, seamless integration

- Farmweld Warming Panels are 18" (457 mm) wide or 24" (610 mm) wide x 8" (203 mm) long.
- Made with virgin polypropylene material.

- Reduces draft to keep newborn piglets warmer.
- Panel texture offers superior traction to improve the stability of newborn piglets.
- The Warming Panel has the same superior quality as other Farmweld Flooring Systems.™
- Interlocking design and size allows producers flexibility in determining coverage area.
- Usable in nursery areas as a warming center.

**Integrates seamlessly with current
Farmweld Modular Cast Platform,
Farmweld Fiberbeams™ and
Farmweld Flooring System.**
